WORK EXPERIENCE

Lead Data Analyst
Astor Bannerman

08/2024 - Present
Achievements/Tasks

- Lead development of financial, commercial, and operational dashboards in Power BI used by senior leadership
- Built automated reporting pipelines using SQL + SAP B1, reducing manual reporting time by **60%** and improving data accuracy.
- Partnered with Finance to analyse revenue trends, forecasting inputs, cost drivers, and site performance.
- Owned KPI framework design and delivered executive-level insights supporting strategic and operational decision-making.
- Simplified complex datasets into concise board-ready summaries, improving visibility of business performance.
- Collaborated with ERP and IT teams to enhance data architecture, integrations, and reporting automation.

Business Data Analyst
CentreMaps (Ordnance Survey Partner)

10/2023 - 08/2024
Achievements/Tasks

- Analysed large-scale datasets to inform commercial strategy and operational planning. Designed dashboards that monitor customer behaviour, project performance, and demand forecasting.
- Ensured data integrity across multi-source pipelines and supported automation using Python and SQL.
- Improved reporting efficiency and reduced manual workload through ETL optimisation.

Marketing Analyst Intern
Southco Ltd (Manufacturing)

02/2023 - 07/2023
Achievements/Tasks

- Supported analytics for product performance, digital campaigns, and pricing. Developed dashboards enabling marketing and product teams to track engagement and sales trends.

Business Analytics Manager
Maheshwari Enterprises (Construction & Engineering)

02/2018 - 07/2022
Achievements/Tasks

- Managed the company's analytics function, overseeing data reporting, dashboard development, and performance tracking.
- Implemented **Power BI reporting frameworks**, improving visibility of project costs, sales performance, and pricing strategy.
- Automated workflows and analytics processes using SQL and Python, enabling faster decision-making.
- Presented analytical insights directly to senior stakeholders, supporting budgeting, forecasting, and project planning.

SKILLS

Core Analytics & FP&A Skills: Budgeting & Forecasting, Automation Variance & Margin Analysis, Multi-site Performance Reporting, Executive Dashboards & KPI Frameworks Commercial & Operational Insight Generation

Technical Skills: Power BI (Advanced DAX), SQL (MySQL, SQL Server), Python (pandas, automation), ETL/CRM & Data Modelling ERP Systems (SAP B1, Enterpryze, HusbPort, SalesForce, PeopleSoft)

Data Strategy & Communication: Data storytelling • KPI framework design • Dashboard visualization • Insight translation for executives • Decision support • Cross-functional reporting • Data governance & quality

Leadership & Collaboration: Analytics Strategy Ownership Cross-functional Partnering (Finance, Ops, Commercial) Senior Stakeholder Communication Process Automation & Solution Design Mentoring & Project Leadership

EDUCATION

Bachelors of Science in Information Technology
Lords Universal College - India, Mumbai

2016 - 2019   *- 7.82 CGPA (A Grade)*

Masters in Business Administration - MBA
University of Worcester - UK, Worcester

2022 - 2023   *- Passed with Merit*

CERTIFICATIONS

Microsoft Power BI Desktop for Business Intelligence

Python for Data Science & Machine Learning

Microsoft Excel – Data Analysis with Excel Pivot Tables

PROJECTS

Workflow Automation App — Python (Flask)
Built for Engineering & Measurement Teams

- Developed a **full offline-capable web application** using Python Flask for engineers to: Complete surveys Open checklists Capture room measurements Automatically calculate scope-of-work Replaced manual paperwork, reducing field-processing time by **75%**. Created ETL pipelines to sync offline data back into the database seamlessly.

ERP Integration & Automation (Enterpryze/HusbPot/SAP B1)
Enterpryze & HusbPort

- Built automated data pipelines integrating financial, operational, and inventory systems. Improved data consistency and consolidated reporting across departments.

Multi-site Performance Dashboard – Power BI + SQL
Created a framework for multi-location performance reporting, monitoring

- Developed executive dashboards for revenue, utilisation, cost variance, and project timelines. A unified reporting framework for multi-location analysis.
